

# Living in a Digital World

## Demystifying technology

by Mark C Baker

We are living through an information revolution that is radically changing all aspects of our lives. **Living in a Digital World** is designed for anyone who would like to build a better understanding of our increasingly digitally dominated world.

It takes readers on a carefully structured journey, sometimes soaring to the heights to explore big-picture issues, at other times swooping down to examine the details of different technologies. All whilst steadily building a sturdy framework of understanding, promoting a more informed engagement with digital technology.

With more than **140 diagrams** and over **70 photographs** the book takes a visual approach, covering aspects as diverse as data, algorithms, flash memory, networks and the internet, cryptocurrencies, mobile communications and artificial intelligence.

Mark spent 12 years as a classroom teacher and subject leader of ICT / computing before moving on to regional and national advisory roles in the UK. He now works as an independent consultant. Mark has an MSc in Computer Science (University of Birmingham), Post Graduate Certificate in Education with Distinction (University of Cambridge) and a Bachelor of Engineering, First Class (University of Bradford).

Available from **Amazon Europe** including **Amazon.co.uk** and in North America from **Amazon.com** and **Amazon.ca** (<<Amazon site>>/dp/1540697517)

Available worldwide to independent booksellers from distributors such as Ingram and Baker & Taylor.

Also available to order from a wide range of online and offline retailers.
